*Make a statement with
a stunning entrance*

A close-up, low-angle shot of a driveway. On the left, a black metal drainage grate runs parallel to a brick house. To the right of the grate is a wide, flat surface of light-colored gravel. In the background, there are various plants, including a large orange flower and some purple flowers. The scene is brightly lit, suggesting a sunny day.

*Our unique commercial resin -
perfect for your driveway*

Our unique resin from the commercial sector especially for your drive

Our driveways are laid with a resin surface, filled with stone to make the drive eco friendly, non – slip, ultra resilient and good looking driveway possible.

We use resin from Colas – a commercial surfacing company – which has been made specifically for commercial use making it the best possible resin for your driveway.

Colas Spraygrip Resin Bonded

In situations where there is potential for high lateral stress, caused for instance by power steering, vehicles braking, or high volumes of traffic, a synthetic resin system is recommended. Colasgrip can be applied over both bituminous and concrete substrates and the binder pigmented to blend with the choice of aggregate, if required. Colasgrip offers the perfect surfacing solution for decorative sites, imposing driveways and landscaped areas.

Colas Spraygrip Resin Bonded

Leochip VLS is a cold applied, durable surface dressing binder. Leochip VLS is ideal for producing a high quality, natural and aesthetically pleasing finish to drives and footpaths.

RESIN

The best quarried stone available in a number of colours and styles.

COLOUR & STONE

We are able to offer a number of colour and stone combinations suitable for any driveway or any use. Stone ranges from 1mm to 10mm and there are several different colours available.

Derbyshire Aggregates

Our supplier, Derbyshire Aggregates is able to offer you the choice of 35 different combinations of stone and colour and we can implement these for you combined with our Colas resin to make the perfect drive.

STONE

Over 30 different colours and stone

CASE STUDY

Resin Bonded Driveway with 27" Extension Moorgreen, Nottinghamshire

The project was to refurbish an existing drive of old concrete which was pitted and cracked and to extend the width of the drive to allow for stepping out of parked vehicle.

We extended the drive by 18" width an additional 9" decorative edging.

02

01 SURFACE

Existing concrete - pitted and cracked

02 RESIN

Brittany Bronze 5mm

03 STONE

Brittany Bronze 5mm

04 EDGING

Charcoal block paving

05 TIMESCALES

1 day edging and preparation
1 day laying to completion

BENEFITS

01 MAINTENANCE FREE

Our Resin Bonded products are impervious to water, which makes it weed free. Petroleum, diesel, oil, acid and alkaline fluids also wash away with a strong detergent making it stain resistant. All that is required is a periodic jet wash and regular stiff brush to remove dirt and mud to keep it looking pristine for years to come.

02 LOW COST INSTALLATION

As we are repairing and using existing surfaces this makes choosing a resin bonded driveway 50% cheaper than traditional drive products.

03 ANTI SKID NON-SLIP

Recommended by the Health and Safety Executive as the best product under foot and regularly used in the commercial sector such as at hospitals, road crossings and parks.

04 ENVIRONMENTALLY FRIENDLY

Resin is a petroleum by-product with man-made, sustainable products. And as we are not removing your old driveway there is no landfill so lower carbon footprint.

05 NO MAJOR DISRUPTION

Our works are carried out within a couple of days without the problems major ground works bring and there is no disruption to areas around the works with a clean, tidy, dust free job.

06 NATURAL STONE BONDED SURFACE

All of our stone is quarried and as natural as the pebbles on the beach that is graded into an even size of 2-5mm and 1-3 mm, washed, dried and bagged.

07 FIXED PRICE QUOTES

Our prices are not estimates, they are fixed quotes as we are working from what we can see

08 NO PLANNING PERMISSION NEEDED

Because we are using existing surfaces no planning is needed in almost all cases.

09 FIVE YEAR GUARANTEE

For that extra peace of mind all of our works are guaranteed for five years. We also carry out an inspection after the first year to clean and fix any maintenance needed.
